## Message from the ISSFN President

It is my honour to extend a warm welcome on behalf of the "Indian Society for Stereotactic and Functional Neurosurgery (ISSFN)" to the participants in the biennial congress -STEREOCON 2026. Our society is a dedicated community of professionals committed to advancing the field of functional neurosurgery through active participation and sharing our knowledge.

In the vast landscape of medicine, functional neurosurgery stands as a beacon of hope affecting the everyday aspects of patient's life affecting the disorders of brain and mind. It is the frontier where cutting-edge technology meets the deep intricacies of the human brain and behaviour, offering solutions to conditions once thought untreatable. We need to share our ideas and experiences with our colleagues and aspiring juniors, to encourage further work in the field.

As members of the society, we meet to share our insights in the field, but also to spend some quality time with friends. The organising committee has chosen a very popular destination, providing us the opportunity to catch up and enjoy the sandy beaches of Goa.

Come let's gather at this very happening place and make this a memorable meet

Regards,

**Dr Milind Sankhe**  
**President,** Indian society for Stereotactic &  
Functional Neurosurgery (ISSFN) &  
Stereocon 2026 Congress

## Message from Organising Committee

Dear Friends,

It gives us great pleasure to announce and welcome you all for the Biennial Congress of the Indian Society for Stereotactic and Functional Neurosurgery- STEREOCON2026

As the field of functional neurosurgery is expanding with active participation of neurologists, epileptologists and psychiatrists, this biennial congress is an opportunity for one and all to share and showcase your work and research in the field of functional neurosurgery, neurology and psychiatry. It provides a unique platform for the young and experienced to make new friends, meet national and international experts in this ever growing subspecialty of neurosciences

We have set a theme of topics focusing on epilepsy, psychiatry and movement disorders in addition to other aspects of functional neurosciences.

The team has picked the charming Goa, for this gathering with an intent of mixing work with fun and frolic. We look forward to a very active participation from the neuroscientists interested in this field and hope to provide some relaxation time with family and friends. Let's meet and make it a memorable congress.

Regards,

Organizing Committee

## About GOA

Goa, which provides a unique blend of culture, topography, people and food, is the smallest state in India, yet it is one of the most sorted tourist places for citizens of the country and even people residing out of India. There are numerous interesting facts about Goa that come to the limelight considering its rich heritage, its marvellous beaches, islands, hills and the list goes on! Over the years, people have discovered the special features of Goa and fallen in love with them.

Goa is where sun, sand, and celebration come together! From lively nightlife at Baga Beach to serene stretches like Palolem and Betul, Goa offers the perfect mix of adventure and relaxation. Days are filled with water sports, while evenings come alive with shacks, music, and seafood feasts cooked in the unique Goan style with Portuguese influence.

Beyond beaches, Goa's rich heritage shines through its UNESCO-listed churches, including the Basilica of Bom Jesus. With luxury resorts, cozy homestays, and year-round charm, Goa is the ideal destination where business meets leisure.
